1. Carton Inspection 4-1

2. Unpacking 4-1

3. Check List & Serial Number 4-1

4. Recommended Temperature 4-1

5. Contents Check List 4-2

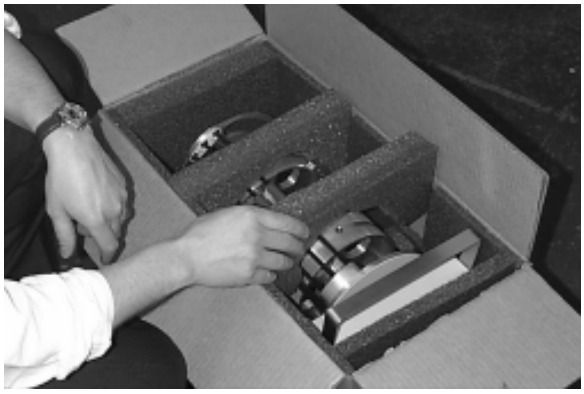
Unpacking

1. Carton Inspection

Inspect the carton for any visual damage. In case of serious damage due to shipping, please contact your shipping company.

2. Unpacking

Unpack numbering device as shown below.



3. Check List & Serial Number

Inspect the contents against your numbering device check list (located on top when opening the box). Have your serial number available before contacting your dealer.

4. Recommended Temperature

Please wait until the unit reaches normal room temperature before using it.

5. Contents Check List

Contents check list
